

## GBM 6 RE Professional

Drill GBM 6 RE speed 1

The small for inaccessible places

**Better handling due to compact design and approach angle of 27 mm / reverse**

**very high rotational speed (idling speed 4000 rev / min) for smaller hole diameters**

Electronic Speed Controller - precise drilling primer clip for attachment to the belt

Completely mounted on ball or roller bearings bearings for increased durability and more precise work

### Reference 0601145665

Automatic chuck (ET No. 2610910300)

Electric tension	230 V
Drill chuck, chuck automatic execution Packaging (L / W / H)	265 x 250 x 80 mm

### Technical data

rated current power plug	350 W
load speed	4000 rev / min
power output	190 W
Weight without cable	1.1 kg
Nominal speed	2600 rev / min
rated torque	0.7 Nm
Thread of the drill spindle 3/8 "- 24 UNF Torque Moment max.	3.5 Nm
<b>Drilling range</b>	
Ø aluminum drilling	8 mm
Ø wood drilling	15 mm
Ø steel drill	6.5 mm

## functions

Infinitely variable speed Reversing right / left Electronics
